CHELA

Chela Ltd is an industry leading manufacturer of specialist cleaning chemicals and maintenance solutions. Chela can offer an innovative, comprehensive range of rail based cleaning solutions. As part of the rail range of cleaning solutions, Chela can offer a comprehensive range of effective pits/undercarriage cleaning and maintenance solutions

Consol

High performance degreaser for pits and undercarriage cleaning

Highly dilutable and effective hard surface cleaner and degreaser. May be used to clean, trains, buses, underground rolling stock and coaches. Will degrease and clean inspections and engineering pits. Removes grime, hydrocarbon and food oils and greases. Can be used virtually anywhere, hotels, kitchens, workshops, warehouses, shops, canteens, floors, road vehicles both inside and out.

- Fast-acting vigorous product which cleans instantly.
- Removes grease, grime oil, soot, dye, ink, nicotine, mildew, and diesel.
- Applied by spray, mop, brush or swab on to almost any surface for instant results.
- Leaves no sticky deposits, just a dry clean surface
- Economical Dilutes with up to 50 parts of water
- Cuts arduous scrubbing therefore saves valuable time
- 4-Rail approved and tested

Microdegreaser

Ultra powerful grease and oil remover

Micro Degreaser uses modern micro emulsion technology to remove even the heaviest grease and oil. Micro Degreaser is a liquid which removes oil and grease from all washable surfaces. Areas of application include rail engineering pits, car parks/driveways, plant/machinery ports and much more. It is easy to use.

Micro Degreaser is also highly effective as an under carriage cleaner on rail vehicles.

- High Performance and quick acting
- Reduced solvent content - lower VOC
- Low odour for operator comfort
- Dilutable with water 1:10 for economy
- Removes oil and grease
- No aromatic solvent
- Free rinsing
- Thick on dilution clings to surfaces
- 4-Rail approved and tested

BioChela Dissolve

High Performance Biological degreaser for pits and undercarriages

BioChela Dissolve is quick acting and effective in removing petroleum based oils and greases. BioChela Dissolve, inoculates oil and grease based stains with micro-organisms which works to degrade the contamination. Essential micronutrients stimulate this action. In this way, BioChela will remove stains imbedded in porous concrete, stone, asphalt and soil as well as non-porous surfaces.

- Proven to clean Ballasts
- Removes stains ordinary products cannot
- Keeps working on imbedded stains
- Deals with surface stains
- Biodegradable
- Enhances biodegradation above and below ground surface
- Cleans oily plant equipment, vehicles and tools
- Solvent free
- Micronutrients boost activity
