Eurowash® ISR Thin

A unique blend of acids specifically formulated for the fast and effective removal of iron stains from rolling stock. Eurowash® ISR Thin will leave surfaces clean and streak free.

Eurowash® ISR Thin has been independently assessed by Scientifics as fit for purpose.

Benefits of using Eurowash® ISR Thin

- Very quick and effective
- Improved rinsing and sheeting on glass
- Leaves surfaces clean, streak-free and shiny
- Effective at low temperatures
- Effective in hard or soft water
- Removes old thick build up of iron dust
- Removes oil and grease
- Lifts off ordinary soil and grime

"Development of Eurowash® ISR has provided an alternative to traditional materials used to remove iron stain from passenger rolling stock. The benefits of the improved cleaning performance, and health and safety advantages that the new product provides means that we will be using the new product on our rolling stock in the future" Roy Morgan, Train Environment Manager, South Central Trains Ltd (Streatham Hill)

Chela: Innovative Cleaning Solutions and Technical Care

Safety & Environment

Eurowash® ISR Thin has been developed with the environment in mind.

- Irritant under EU legislation
- Uses biodegradable surfactants
- Does not contain, NTA, EDTA or HEDTA
- Does not use alkyl phenol ethoxylates

Dilutions

May be diluted with as much as 40 volumes (2.5% v/v) of water depending on degree of soiling.

Method of use

Automatic Brush Wash

Ensure that the dosing pump has been calibrated for dilution at the appropriate rate. Carry out cleaning as specified by the brush wash manufacturer.

Product Endorsements

Eurowash® ISR Thin has been tested to their material compatibility protocol by Scientifics Ltd and been shown to be suitable for use in the rail industry.
