registered organisation

# Universal Wipes

**Use Universal Wipes to remove partially cured and uncured sealants including, silicone, polyurethane, and polysulphide from hands, tools and surfaces. They will also remove wet paint, putty, glue, mastic and resins. Universal Wipes are a non-woven towelette impregnated with a mild water-based cleaning solution. The soft absorbent surface lifts and removes "sticky stuff" leaving the surface clean. Universal Wipes are big enough to tackle the worst cleaning jobs including the removal of general grime, grease and oil as well as the uncured sealant, paint, glue and resin. Signed off under EU Cosmetics Directive.**

## Why use Universal Wipes

- Cut down on post installation clean up time
- Highly effective - lifts wet sealant, paint, glue and resin from hands and surfaces
- Safe on plastic, powder coated, painted surfaces as well as metal and glass
- Leaves hands and surfaces clean
- Pleasant to use - clean fresh lemon smell
- Contains lanolin to protect and keep hands supple
- Conveniently packed in handy tubs
- Economical
- Long shelf life - tub has re-sealable closure

Chela: Innovative Cleaning Solutions and Technical Care

Chela Ltd Product Code: 818

## **Application of Universal Wipes**

Use Universal Wipes to remove excess or surplus sealant and adhesive before it cures. This early removal cuts down the time needed for post installation cleaning. Prompt removal from hands and equipment is good practise and avoids the transfer of sealant to surfaces making cleaning quicker and easier.

Use Universal Wipes when painting. They quickly remove wet paint from surfaces and hands. Ideal for use when using resin fillers, glue and glass fibre resins. Keeps hands and surfaces clean.

Universal Wipes do not dissolve "sticky stuff" such as sealant, paint or glue. They work by picking it up from the surface. This means it is not spread or smeared, so clean surfaces and clean hands are readily achieved.

## **Hand Cleaning**

Open the dispenser and draw out a wipe. Use to wipe hands thoroughly to remove all traces of "Sticky stuff".

If necessary use a second wipe.

Hands dry quickly on their own, leaving the skin soft and clean.

## **Surface Cleaning**

Open the dispenser and draw out a wipe. Use to wipe surface thoroughly to remove all traces of "Sticky stuff"

If necessary use a second wipe.

Cleans plastic, metal and gloss painted surfaces without causing damage.

## **Cleaning of tools and equipment**

Open the dispenser and draw out a wipe. Thoroughly wipe the tool to remove all traces of "sticky stuff". If necessary, use a second wipe. Dispose of used wipes thoughtfully

## **Cautionary Notes**

Keep dispenser closed to prevent wipes drying out.

Dispose of wipes with non-toxic waste.

## **Product Endorsment**

**Checked for safety under the Cosmetics Products (Safety) Regulations 1996 as amended to conduct and take responsibility for the safety of cosmetics products.**

**This is just one product from the Digesil® range**
